

Limited Quantities

You can send goods in limited quantities as long as you meet the legal criteria and do not exceed the stipulated size limits. You must adhere to the relevant regulations and seek advice when transporting Limited Quantities otherwise they cannot be transported.

Please refer to the Government website for further information

<https://www.gov.uk/shipping-dangerous-goods/transporting-limited-quantities>

The Limited Quantity shipments for liquids must not exceed a maximum of 5 litres and for solids a maximum of 6 kilograms.

The inner packaging that comes into contact with the goods has to be appropriate for its' intended purpose. It must be sturdy and leak-proof to prevent spills or leakage during transportation.

The outer packaging must house the inner packaging giving the goods an additional layer of protection, it essential that ample packaging material is used as cushioning to reduce the chances of damage. The outer packaging must be tightly sealed to prevent it opening throughout the duration of the journey.

A LQ diamond symbol must clearly be displayed on the outer packaging to show that it is classified as a limited quantity.
