

Limits of Liability

For UK freight movements all pallets will be carried under RHA Conditions of Carriage 2024 ([Available at the bottom of each page of our website](#)) with an enhanced maximum liability of £10,000 per tonne.

Terms for international consignments not covered by RHA conditions will be advised and copies of the CMR supplied upon request. We insure our liability not the goods and we strongly recommend you arrange separate cover for high value goods should £10 per kilo not cover the value of the product(s).

If you are a Third Party Carrier our liability may be limited by your trading terms with your customer and your contractual liability to them.

Loss or damage to goods must be notified to London Pallet Logistics within 7 days of the end of transit.
